

Shooting advantages Z-aim™ Hunter/ISRS

From a prone position you can make quick and accurate shots. Z-aim™ Hunter/ISRS is the only rifle rest that allows you to adjust the height while you are aiming.

Z-aim™ Hunter offers secure support so you can shoot from the most comfortable height in almost any position.

Z-aim™ Hunter/ISRS large rubber covered foot will rest safely against most surfaces, whether horizontal or in an angle.

Z-aim™ Hunter/ISRS makes it easy to zero in your weapon.

Z-aim™ Hunter/ISRS it is easy to aim upwards. Perfect for bird hunting or when hunting in rough terrain.

From a sitting position - you can shoot over long distances with high accuracy.

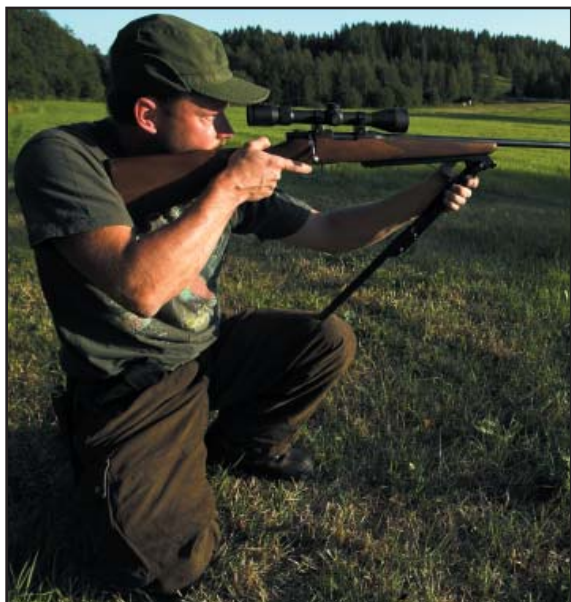

With Z-aim™ Hunter/ISRS it is easy to shoot from a sitting position, whether you are sitting on your backpack or a rock.

Z-aim™ Hunter/ISRS is perfect when you shoot from a sitting position from a tower. You can shoot in almost any direction with a minimum of body movement.

Z-aim™ Hunter/ISRS is the only rifle rest that easily can be used from a tree stand. You can shoot in any direction and adjust the height of the rest for maximum comfort and accuracy.

The knee-standing position is perfect for quick reaction to game or sudden sightings. The end of the rifle rest remains still on your knee even during weapon recoil.

Shoot from a standing position with better accuracy. Hold your position for a longer time before fatigue sets in.

Shoot without support - the folded rifle rest provides a good grip for your hand. The surface is smooth without any sharp edges that could cause injuries.

When hiking, the rifle rest can be left partially open so you are ready to shoot from standing, kneeling or prone position.
